

Small CNC Lathe (Product No: CK400)

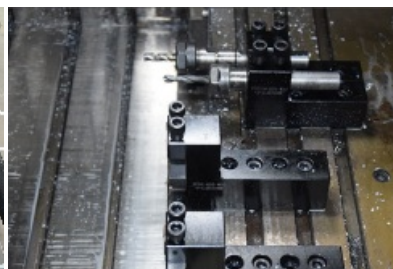

Standard with auto collet, suitable for repetitive work

With Servo spindle and Compatible for auto feeding.

High precision Linear Guide rail and ball screw.

Technical Parameters	
Max Spindle Speed	≤5000 rpm
Finish after machining	1.6Ra
Spindle hole	≤φ18 mm
Repeat positioning accuracy	±0.01 mm
Unilateral cutting amount	1mm (2mm max)
Spindle Power	1.3Kw Servo
X/Z Axis Motor	750w Servo
X Axis Travel	400 mm
Z Axis Travel	200 mm
Fast feed rate	15m/min (20m/min max)
Clamping Diameter	Pneumatic ≤φ25mm
Cutting Length	150 mm
Cutting Length With Lathe Center Frame	120 mm
Machine Bed Inclination	15°Slant lathe bed
Controller	KT830
Ball Screw	Taiwan P4
Linear Guide	Taiwan P4 Linear Guide rail
N / G Weight	1100Kg
Machine Size	1200*1200*1600mm
